"CANDELARIA, FROM SUMMIT TO SHORE"

Candelaria welcomes you to a magical place, a destination for pilgrims for more than five centuries. Located in the spectacular valley of Güímar, its volcanic origins have created a stunning landscape of high mountains towering over sweeping slopes and a coastline of black sand beaches. Its indigenous heritage, represented by the legendary Guanches, is still kept alive in the memory of our town, watched over by the iconic statue of Nuestra Señora de la Candelaria, a symbol of the meeting of cultures.

Come and discover our history, wander through the streets, lose yourself on our trails and sample the local produce.

A paradise not to be missed!
